

Agile Journey Team

Unleash energy for change and make rapid progress

Point B Consulting & Advisory

Duesseldorf, February 2018

An Agile Journey Team designs and pilots the transformation process within a framework set by the Board of Directors

Agile Journey Team

The Agile Journey Team

... is cross-hierarchical, cross-functional and cross-organizational (approx. 30 persons)

... meets monthly as an entire committee in interactive working meetings

... reflects the target image in its applicability to the organization and derives the prerequisites to be created

... is a multiplier and supports the implementation of the cultural target image

... receives feedback and impulses from the organization on the transformation process and interventions

Agile Task Forces ...

... are the operative "speedboats" for planning and implementation of concrete change measures within the Journey Team

... remove barriers and create suitable framework conditions for agile work

... identify suitable pilot processes and design them together with the responsible experts according to agile principles

... work according to agile principles and with appropriate methods (learning by experience)

We are looking forward to meeting you!
